- Operational
- Military Caching in Alaska

REFERENCE: DAKA-454

1. Information is desired relative to the following specific items on the military caching program in Alaska.

a. Description of military caching containers and/or barrier materials, including size, metal or material, and type of closure.

b. Average and maximum duration of any cache, both above and below ground.

c. Results of the military program. We are especially interested in learning what types of containers or barrier materials stood up exceptionally well and which types failed to provide protection.

2. This information will be beneficial in planning a KURIOT burial testing program at Fort Churchill, Canada.
